AQUACULTURA INDONESIAANA is an official International scientific Journal of Indonesian Aquaculture Society that publishes peer reviewed original, short communication, review papers, Indonesian and English-language papers concern on the basic and applied tropical aquaculture including ornamental fish, live feed, seaweed and other aquatic plants. This journal also published the paper described the case study on disease outbreak, environmental degradation, sustainable aquaculture, impact of climate changes and global warming on aquaculture,

1. Nutrition,
2. Diseases and environmental health management,
3. Genetics and breeding,
4. Aquaculture Biotechnology
5. Physiological aspect of aquaculture,
6. Aquaculture engineering,
7. Aquaculture production system,
8. Aquaculture business are subjects appropriate for the *Journal*.

Papers in which relevance to aquaculture is not clearly demonstrated will not be considered for publication. Article manuscript files must be sent in Ms. Word. Ms word template can be accessed in https://docs.google.com/document/d/17g4MDIM39eBDIPLiQftImD0UdDCR_xd1/edit online via the website: <https://aquacultura.ac.id/index.php/>. Authors are required to read the author guidelines <https://aquacultura.id/index.php/ai/author-guidelines> before send the manuscript.

PUBLICATION FREQUENCY

The publication frequency is carried out in one year, twice every six months in April and October, and has been established since 2001.

PROCES OF PEER REVIEW

The articles published in this journal have gone through a substance review process by at least 2 reviewers a single-blind manner. A pre-review of the article will be carried out to see the suitability of the page format, images, tables, citations, and reference lists as well as systematics of article chapters. Checking for elements of plagiarism is carried out through search on Google Scholar and Turnitin. Reviews are carried out over 4-8 weeks. If desired, reviewers can request a review after the author revises the article. The decision whether the article is accepted or not becomes The authority of the Chief Editor is based on recommendations from the reviewers.

TABLE OF CONTENTS

1. Editorial Team.....	(i)
2. Focus and Scope.....	(ii)
3. Indexing and Citations.....	(iii)
4. Table of Contents.....	(iv)
5. Observation og Excess Air Discharge in The Budikdamber Pond Aeration System on the Real Effect of Tilapia Fish Health (Oreochromis spp.).....	1-8
6. Salinity Effects on Growth and Nutritional Content of Newly Isolated Microalgal with Potential Use in The Shrimp-Hatcheries.....	9-19
7. Intestinal Enzymes and Lactid Acid Bacteria of Red Tilapia (Oreochromis sp.) Fed Black Soldier Fly (Hermetia illucens) Larvae and Probiotics.....	20-29
8. Substrate Manipulation in Controlled Rearing to Increase Growth and Survival Rate of Holothuria scabra Jaeger.....	30-34
9. Substitution of Maggot Meal (Hermetia illucens) in Feeds to The Growth Performance and Survival Rate of Goldfish (Carassius auratus).....	35-45
